

**16<sup>th</sup> German Concrete Canoe Regatta**  
**9<sup>th</sup>/10<sup>th</sup> June 2017, Cologne, Fühlinger See**

## Registration

Dear friends of the regatta,

as an attachment, you will receive some information and the registration form for your participation at the 16<sup>th</sup> German Concrete Canoe Regatta in Cologne.

At the Fühlinger See boat race course there are areas available for camping and for parking of motor homes. Sporadic power distributors are available at the boat storage place. They are not available at the campsite. Privately owned power generators are not permitted for reasons of landscape protection. Campfires and barbecues directly on the ground are prohibited. Usual grills on legs are permitted. Sanitary facilities (toilets, showers, changing rooms) are available. Please enter your intended tents and campers on the corresponding form.

For the registration, please fill in a separate form for the Competition Class concrete canoes for each canoe team.

For better clarity and for easier evaluation of your construction reports, we have drafted a special form for the construction report. In this, we would like to request the most important data concerning your boats. Please attach the completed forms of your construction report.

According to the Invitation to apply, your registration for participation and overnight stay as well as the notifications for the canoes and the Open Class watercraft including the Construction Reports and data sheets must be received by 8<sup>th</sup> May 2017 at the latest.

Please note: The construction report is to be sent by post in the printed form to the following address:

Betonkanu-Regatta (Race Direction), InformationsZentrum Beton GmbH,  
Biebricher-Str. 74, 65203 Wiesbaden

A program/flyer with further information about the regatta is in preparation and will be sent at the beginning of June.

Yours sincerely

Dr.-Ing. Diethelm Bosold (Race Direction)
