

18th German Concrete Canoe Regatta
10th/11th June 2022, Brandenburg a. d. Havel

Registration

Dear friends of the regatta,

as an attachment, you will receive some information and the registration form for your participation at the 18th German Concrete Canoe Regatta in Brandenburg an der Havel.

At the Beetzsee boat race course there are areas available for camping and for parking of motor homes. Individual power distributors are also available. There is a barbecue area. Barbecuing at the tents is not allowed. Sanitary facilities (toilets, showers, changing rooms) are available. Please enter your intended tents and campers on the corresponding form.

For the registration, please fill in a separate form for the Competition Class concrete canoes for each canoe team.

For better clarity and for easier evaluation of your construction reports, we have drafted special forms for the construction report. In this, we would like to request the most important data concerning your boats. Please attach the completed forms of your construction report.

As mentioned in the invitation, we expect your registration for participation and overnight stay, the registration of the competition class canoes and open class watercraft including the construction reports with attached data sheets until 21st May 2022 at the latest.

A program/flyer with further information about the regatta is in preparation and will be sent at the beginning of June.

Yours sincerely

Dr.-Ing. Diethelm Bosold (Race Direction)
